Strategize Organize LLC, Professional Organizer

Susan Hunsberger, MA, CD and ADD Specialist

Website: strategizeorganize.com

Email: susan@strategizeorganize.com

Phone: 734.389.5182

Susan Hunsberger partners with students struggling with chronic disorganization. She sees issues as opportunities and uses curiosity and conversation to unpack what's working and what's not. She and her clients take action toward realistic solutions. For students, keeping track of papers, planning, and turning in work (on time) can be challenging, especially in the transition years when they are expected to take on more responsibility. Whether it's elementary or high school students, backpacks, or planners, she CAN HELP!
